Federal Loans

If you still need money after maximizing your federal, state and institutional grant aid, consider federal loans first. Federal loans are available to most undergraduate students and parents and have relatively low fixed interest rates and multiple repayment options. Interest rates vary depending on the loan type and the first disbursement date of the loan. Check studentaid.gov for the latest interest rate information.

Direct
Subsidized Loans

Direct Unsubsidized Loans

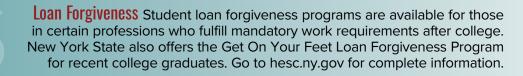

Are loans made to eligible undergraduate, graduate, and professional students, but eligibility is not based on financial need.

Direct PLUS Loans

Are loans made to graduate or professional students and parents of dependent undergraduate students to help pay for education expenses not covered by other financial aid. Eligibility is not based on financial need, but a credit check is required. Borrowers who have an adverse credit history must meet additional requirements to qualify.

Direct Consolidation Loans

Allow you to combine all of your eligible federal student loans into a single loan with a single loan servicer.

PRIVATE LOANS PRINCIPAL INTEREST FEE

Private Loans

A private student loan – sometimes known as an alternative loan – is another option for financing college costs after traditional funding sources, such as federal and state grants, scholarships and loans, have been exhausted.

Private student loans are usually unsecured, which means approval is based on a financial institution's assessment of your ability to repay.

You will secure better terms and pricing by adding a creditworthy co-signer to your application. Always check the interest rate, fees, interest capitalization policy, repayment period, prepayment penalties and other terms and conditions of the loan before you sign a promissory note.

These can vary – sometimes considerably – depending on the financial institution underwriting the loan.

It's important to understand all the terms associated with a loan before you choose one.

Maximize your Free Money first:

Only consider private loans as a last resort. Utilize your financial aid, grants, and scholarships to the fullest, before opting to pursue a private loan.

Only borrow what you need. Loans must be paid back with interest.

Applying for financial aid isn't difficult. Follow these simple steps.
